The AUTOSOL® Family of fine products introduces a new and modern package design. For more than 75 years The DURSOL Factories have been manufacturing The World's leading Metal Polishes and Cleaners. We use only the best raw materials from the best suppliers which insures your 100% satisfaction.

Once you try AUTOSOL® you too will be a regular user...We guarantee it!

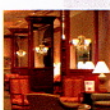

## INDUSTRIAL

- Used in the manufacturing of PET Coke™ and Pepsi™ bottles Globally
- Suitable for use in Injection Moulds as well as Blow/Stretch Moulds
- Fantastic results when applied to Chromed Blown Film Extrusion Rollers
- Vast applications to virtually any metal surface like: Chrome, Stavax, etc.
- 'Food-Safe' ingredients allow it to be used on food preparation surfaces

## HOTEL / RESTAURANT

- Used at the World's only 7 star Hotel
- Non-Toxic and Non-Flammable
- For polishing; hand-rails, elevators, door handles, reception desk, etc...
- Works quickly and effectively with no unpleasant odour
- Perfect for polishing; Brass, Bronze and Stainless Steel efficiently, especially larger areas

## VEHICLES

- Great for use on Chrome and Aluminium parts
- Unmatched for it's ease of application and long lasting protection
- Cleans, Polishes and Protects all in one application
- Authorized supplier to several leading airlines
- Can be applied manually or with a mechanical buffing tool

## COMMERCIAL / INSTITUTIONAL

- Used internationally by countless Cleaning Contract Companies
- Strong and effective polishing makes it tremendously valuable
- Available in bulk containers
- Non-harmful ingredients allows AUTOSOL® to be used anywhere a surface needs cleaned and polished
- Quick and easy to use and also safe to skin
